

**What is Crepe ?**

A crepe (pro. as krep) is actually a pancake prepared the French way. It is round, paper thin and closely resembles a fine lace dolly. When folded into a cone shape, various fillings such as fruits, ice cream, hams or vegetables are prepared to the liking. Previously available only in five-star hotels and restaurants because of its delicate preparation, now, it can be savored in **Crepe Shack**. While quick food usually means calorie-laden hamburger and fried food, **Crepe Shack** offers more than 30 delicious crepe selections. These can satisfy all types of cravings, from sweets and sinful ice cream crepes, to healthy vegetarian crepe. We make it easy and fast in the presence of the customer for their enjoyment and heighten the craving.
